

DESIGNATHON

(It can Enable Paid Internship Opportunities)

1. Event Name

DESIGNATHON (UI/UX Challenge)

2. Objective

To assess participants' creativity, user-centered thinking, and ability to design intuitive and visually appealing interfaces within a limited time.

3. Overview

Designathon is an inter-college UI/UX design competition where students design a user interface based on a given project idea using their preferred design tools.

4. Format & Duration

- **Mode:** Individual (Solo)
- **Rounds:**
 1. Design Round (You may start working from now using the provided problem statement and prepare your design solution before the event day)
 2. Design Showcase Round (All teams will present and demonstrate their final design solution in front of the judges at the venue)
- **Download - [Problem Description](#)**

5. Participation Details

- **Participation Type:** Solo
- **Eligibility:** PMEC undergraduate students
- **Design Task:** One project idea will be provided to work

6. Evaluation Method

Designs will be evaluated by judges based on:

- Creativity and originality
- User experience and usability
- Visual design and layout
- Clarity of concept and presentation

7. Facilities & Requirements

- Desk space for each participant
- **If you perform good, then it has paid internship opportunities thought our sponsor, Nexus Infotech.**

8. Rules & Guidelines

- The design must be created solely by the participant
- Use of unfair means will lead to disqualification

9. Registration Fee

- ₹60 per participant

10. Prize Pool Distribution

The total prize pool for DESIGNATHON is **₹3,000** .
